CAUTION

Be careful what kind of gasoline the next dealer sells you.

Some service stations are trying to get rid of inferior gasoline by the use of misleading names, which make the motorist think he is getting gasoline made by this Company.

The Standard Oil Company of New York produces only one gasoline for motor cars. It is called SOCONY Motor gasoline.

Ask for it by name-SOCONY Gasoline. It insures most mileage and least carbon trouble.

Sold by reliable dealers wherever you see the RED, WHITE and BLUE SOCONY sign.
